and NSD File No. L-00-72.

Dear FCC:

The reason I have a cell phone is because I can't afford a house phone. If you raise the prices of cell phone then I won't have no phone. I need a phone for my two small child just in case something happens to them. I am a working, but single mother trying to take care of my family. If you raise these prices I will not be able to afford a phone no more. Please take my thought into consideration before raising prises.

Thank You,  
Bobbie Jo Grillo
